

**Reduce, Reuse, Recycle and Compost**

# Green Table

André LaRivière  
Executive Director

the sustainable  
foodservice network

# the green table network is...

- an ENP organization that enables the shift to a more sustainable foodservice industry
- > 80 members - food court to fine dining, and on supply-side
- providing resources and support
- consumer branding and marketing

Green  
Table

# why sustainable foodservice?

- the new measure of success
- measurable change - opportunities & solutions
- shift both systems and behavior

Green  
Table

# understand the impact...

- onsite assessment in five categories - energy & water, pollution, purchasing and waste
- three aspects - systems, applications (users) maintenance
- two factors - selection and control

Green  
Table

# (re)consider the source...

- office - menus, staff communication
- kitchen - organics, disposables
- supplier - non-recyclables, bulk products
- service - refillable and reusable

Green  
Table

# ...and the destination.

- recycling - sorting it out
- biodegradable, compostable or returnable solutions
- staff engagement

Green  
Table
